

## March 2010 Newsletter

Think Responsibly is an online resource designed for students in grades 4 - 7 and their parents and teachers... and the site has just undergone significant changes!

### At a Glance: What's New with Think Responsibly?

1. More sophisticated look (easier to navigate)
2. New organization that emphasizes responsible citizenship
3. A monthly newsletter features links to local events and stories that support responsible citizenship and safety education
4. Think Challenge Projects embedded throughout the modules
  - a. Students have multiple opportunities throughout the year to enter their projects and possibly have their work featured on the site
  - b. iPods are awarded to Think Challenge Winners (random draw from submissions)

The Calgary Board of Education in partnership with The City of Calgary has developed modules that address such issues as: **peer pressure and bullying, graffiti awareness, fire safety, responsible use of city parks, recreational health and safety, head injuries and the importance of helmets, and safe use of our water systems.**

## Current Events

Helmet Safety - [Don't trust ski helmets to protect you in a crash.](#)
